Hi Felicia,

We would like to use \$25,000 in Arts Development Fee for 1126 S. Westmoreland Ave., Los Angeles, CA 90006 for our Second Annual Independence Day Music Festival in MacArthur Park on July 2, 2016. How do we access these funds? Thank you.

Regards,

Conrado Terrazas
District Director
Office of Councilmember Gilbert Cedillo, District 1

Hi [REDACTED]

When is the deadline for 2017 city festival guide so we can include The Northeast Latin Jazz and Music Festival in 2017?

Thanks for your suggestions.

Conrado

Conrado Terrazas <conrado.terrazas@lacity.org>

Hi Will,

Conrado from CD1 is interested in the deadline of the festival guide. I believe it is usually end of Sept.

Best,

Hi [REDACTED]

We will send out a request for festivals for the 2017 Guide in September and will add Conrado to the distribution list.

The deadline will most likely be mid-October this year.

Best,

Will

Hi [REDACTED] elicia,

Is there a DCA process that we must use to secure artists to paint utility boxes whether they use DCA funds or not?

Also, does DCA have funds that artists or an organization can apply for to paint utility boxes.

Lastly, can we use the DCA fund set aside for murals for CD1 to paint utility boxes?

Thanks.

Conrado

Hey Team, I have a question below from a Mt Washington constituent about utility boxes. Does anyone have a definitive answer?

Subject: A question about Mount Washington West electrical boxes

To: [REDACTED]

Hi [REDACTED]

A question has arisen in our neighborhood and I'm not sure where to address it so I'm hoping you might be able to help. As you are no doubt aware, throughout the city artists have been sponsored to paint various utility boxes. Several people have wondered if it's feasible to paint the electrical boxes throughout the Mount Washington West neighborhood (all our electrical wires run underground here). I tend to believe not, since (unlike the traffic, telephone and other utility boxes that are generally decorated elsewhere) they contain high voltage connections and there could be potential hazards to anyone working on them, or to the boxes

being covered with paint or other substances. But I've been asked to try to find a definitive answer. Would you be able to help, or if not, could you refer me to another resource?

Thanks again for all your help in the past,

Tony Gleeson

A follow up question about electrical boxes from the same Mt Washington constituent below....are the electrical Mt Washington boxes different from other boxes in the district?

Hi [REDACTED]

Thanks, I appreciate your efforts in asking about these. You seem to have opened this up to a larger (but welcome) question about if there could be an organized program to paint utility boxes in CD1 as there has been in other districts and in cities like Glendale and South Pasadena. I would like to see this happen but also want to direct back to my original question, which pertains to the High Voltage boxes that exist in Mount Washington West, e.g. Marchena Drive, Karelia St., Sunny Heights Drive, Primavera Ave., and Tropico Way. These are, I believe, a different "animal" from the usual utility boxes one finds in bigger intersections and I would really like to find out more information about those... if they are "hands off" for any kind of decoration, as I tend to believe they are. See, for example, the attached photo of the one outside of my own residence.

Thanks again,

Tony Gleeson

Sure Felicia.

██████ think I remember hearing you talk about the different kinds of boxes such as communications vs. signal control and city vs. privately owned boxes. Do you know what category this falls under? They are located in a residential area. I wanted to check with you before I ask DOT.

Hi [REDACTED] Conrado,

We are still looking into this. It's a little bit out of our purview. Have you contacted DOT or Street Services to find out which boxes are permissable to paint on. I believe DOT has a list of boxes. Try jonathan.hui@lacity.org at DOT.

Hello All,

Our staff called the number on the box. It belongs to LADWP.

We are not aware of LADWP policies regarding decorative displays on their boxes. You may want to inquire with Department of Water and Power.

The voltage may be an issue. DOT requires that *no pressure* washing can be done to avoid damaging the contents (a process used by Public Works to remove marks from anti-graffiti coatings on murals) . For your information, attached is DOT's policy.

Let us know what you all find out.

Thank you,

Yami

Just received a response from DWP Anthony Maxey. Apparently, these boxes are transformers. Safety requires that the boxes are left alone and be as far away from water as possible. I will let the constituent know about the problem.
